BOMB SUSPECT HELD FOR DRAFT EVASION

Scranton, Pa., April 21.—The Ligt, 27 years old, was arrested here Tuesday on suspicion of connection with the Wall Street explosion of last September, quit his job here as a common laborer eight days before the disastrous blast, police learned today. They were unable to trace his movements from that time until early in October, when he was re-employed on a construction job in this city. For four hours this afternoon the suspect was quizzed by local officials, a detachment of justice agent and a detective who arrived early today from New York. Ligt reiterated his admission of being a draft evader during the war, and of being an anarchist, but he denied that he had been in New York at any time during the last seven years.

The New York detective, Thomas Martin, said after seeing the prisoner that he did not conform in some respects to the descriptions given by Metropolitan police of the man thought to have been in the "death wagon" into the "blast" which caused four deaths and injured more than 150 others.

"However," Detective Martin added, "You cannot place great trust in descriptions; they are apt to be wrong."

Ligt is being held on a charge of evading the military selective service. Whether he will be taken to New York could not be learned tonight. Investigators are endeavoring to find out his whereabouts at the time of the explosion.

It is said that the business men of Ardenville prefer desks made in the United States to any others. American chairs and other office furniture are also in demand.

BOYS THROWN FROM BICYCLE

WHEN HIT BY AUTO-MOBILE. Henry Harrison, son of Mrs. Mary T. Harrison of 175 Broadway and Archie Sharp, both Academy boys, escaped serious injury at 5:45 o'clock Thursday afternoon when the bicycle on which the boys were riding was hit by a touring car bearing the registration number 12550 R. L. and owned and driven by W. H. Brede of Harwatsville, R. L. The accident occurred on Crescent street a few feet north of the Academy driveway.

The touring car which left Franklin square at 5:30 o'clock had just turned the corner at Crescent street and Williams ave. when Mr. Brede drove his car which was moving slowly from Williams ave. into Crescent street passing behind the trolley car. At the same moment the two boys on the bicycle, the Sharp boy driving and the Harrison boy riding on the handle bars, turned into Crescent street from the Academy driveway.

Neither driver saw the other until too late to avoid a collision. The Sharp boy tried to steer out of the way of the machine and Mr. Brede threw on his brakes but the automobile hit the rear wheel of the bicycle smashing the wheel and throwing the boys to the ground.

The Harrison boy was thrown in such a way that he went under the automobile which passed over him but the wheels did not touch the boy's body. Mr. Brede stopped his machine within a short distance. It was at first thought that the boy was badly injured but in a few minutes he recovered sufficiently to walk to Mr. Brede's machine in which he and the Sharp boy were taken to their homes.

A preliminary examination showed the Harrison boy to be suffering from a painful lump on his forehead above the eye. The Sharp boy, about his body, the Sharp boy escaped almost unscathed.

MORE POWER CONFERRED ON NORWICH SCOUT COUNCIL

As the policy of the national headquarters of the Boy Scouts of America is to decentralize many of its former functions, much of the work formerly done by the national headquarters at New York is now being done by local councils. This particularly applies to first class councils. For instance, a troop of scouts registers at local headquarters, a duplicate copy of the registration papers is sent to New York, but the registration card for the individual scout is issued from the local office thereby avoiding delay and mistake as sometimes happened when the registrations were sent out from national headquarters.

This also applies to merit badges. These also after being passed upon by the local examiner and the local court of honor are issued in the same way as are the registration cards, a duplicate being sent to New York. This policy of the Boy Scout council has been greatly improved. The whole plan is now similar to our national state form of government, the national headquarters corresponding to the federal government and the local councils to the state. The wisdom of this policy is self evident for the councils like the states themselves are the best judges of their own affairs.

The Norwich council, heretofore, will be in a position to go forward much more independently than heretofore and it is hoped that the existing troops in the city will take advantage of the new order of things and progress along the lines of scoutcraft, nature study and all activities.

DARTED FROM SIDEWALK. STRUCK BY AUTOMOBILE

Michael Plazanza, 10, of 123 Franklin street, was hit and knocked down in Franklin street at 5 o'clock on Thursday by an automobile driven by Dr. W. T. Brown. The boy was slightly hurt, receiving a bump on his head and a bruised elbow.

According to the report of the accident, another boy who was playing with a ball was standing in the street near the watering trough at the Boswell avenue park and the Plazanza boy was on the Franklin street sidewalk as the doctor's car came along by the moderate speed. The boy suddenly darted out from the sidewalk in front of the machine and was hit by the radiator. The doctor stopped the car at once and the boy was lifted out from between the front wheels. Dr. Brown took the child home and later visited him again in the evening to see that he was not seriously injured.
